STIR WELL BEFORE USE

DANGER KEEP OUT OF REACH OF CHILDREN

DONAGHYS

tailalert

Oil-based fluorescent tail paint for detecting heat in cows.

NET CONTENTS

10 Litres

DANGER

READ LABEL BEFORE USE

Keep out of reach of children. Wash hands thoroughly after use. May be fatal if swallowed and enters airways.

DIRECTIONS FOR USE

To achieve the best results, ensure the animal is clean and dry before applying. Paint a 15cm long by 6cm wide stripe along the ridge of the backbone at the top of the cows' tail. Oestrus activity will be visible where rubbing or removal of the paint has occurred. Under the correct application and appropriate conditions, Donaghys tail alert will last on cows for up to 30 days on cows that have not cycled, depending on conditions.

MARKING INSTRUCTIONS

Apply tail alert to the herd 4 weeks before the start of mating. Record those cows with rubbed or broken paint as they will have cycled. After three weeks have the vet check all the cows which have not cycled. Re-apply tail alert to the herd at the start of mating with a second colour. Check paint every 24 hours. Cows with rubbed or broken paint have been on heat within the last 24 hours and are ready to be inseminated. Re-apply tail alert 12 hours following insemination with a third colour. If paint is rubbed or broken, these cows have returned to heat and failed to conceive.

HAZARD STATEMENTS

Flammable liquid and vapour. May be fatal if swallowed and enters airways. May cause drowsiness or dizziness. Suspected of damaging fertility or the unborn child. May cause damage to hearing, central nervous system, liver & kidney through prolonged or repeated exposure. Toxic to aquatic life with long lasting effects. Hazardous to soil organisms.

PREVENTION STATEMENTS

Keep out of reach of children. Read label before use. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing vapours. Wash hands thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves, clothing and eye protection. Do not eat, drink or smoke when using this product. Use only outdoors or in a well ventilated area.

RESPONSE STATEMENTS

If medical advice is needed, have product container or label at hand.

IF IS SWALLOWED: Immediately call a POISON CENTRE or doctor/physician. Do not induce vomiting.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. If skin irritation or rash occurs, get medical advice/attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTRE or doctor/physician if you feel unwell.

IN CASE OF FIRE: Use water mist, alcohol resistant foam, carbon dioxide or dry chemicals to extinguish. Collect spillage.

If exposed or concerned: Get medical advice/attention.
