WITHHOLDING PERIODS

Milk NIL

Meat NIL

DOSE RATE

4-10mL dose rate per head
(situation dependent)

FURTHER INFORMATION

Donaghys RumenZyme Cobalt Plus is a probiotic extract scientifically formulated for ruminants to aid in the establishment and activity of beneficial rumen microflora. It contains the fermentation extracts of a large range of selected organisms (providing microbial growth promoters, enzymes, and organic acids).

If unable to drench orally, Donaghys RumenZyme Cobalt Plus can be dispensed through the watering system or sprayed onto supplementary feed at equivalence to the above rates.
