

Product Application Guide

	Builders Line Donaghys Nylon Builders line uses high grade nylon yarn twisted to produce a line far superior to other lines on the market.	              															
	Plumbers Hemp The original plumbers hemp produced using high quality linen flax yarn, Donaghys plumbers hemp does the job right the first time, used by professional plumbers world wide.	        															
	Motor Starter Cord Solid braided polyester cord in sizes to suit all common pull start mechanisms. High abrasion resistance & non kinking for long life.	        															
	Shock Cord The popular, multi-functional elastic cord for shock absorbing lines and for securing light gear on boats, ute covers & golf buggies. The construction of shock cord consists of a high grade rubber core encased in a braided polyester cover which protects the rubber from abrasion and UV light.	        															
	Smooth Braid Multi purpose fine cords . Smooth jacket allows easy untying or lacing through eyelets. Common usage in Venetian & Vertical Blinds & Picture Framing.	        															
	Cotton Halter Weave 28mm width soft hollow plait. Easy on the hands and for splicing an eye loop.	        															
	Soft Grip Soft on hands yet strong & durable in either sheet line yachting use or an attractive animal lead.	        															
	Yachtmaster XS Double Braid Soft & pliable cord suitable for marine mooring, animal leads and general tying & securing.	        															
	Superfilm Yellow Rope The real value for money rope, Superfilm Rope is produced from extruded polypropylene tape twisted into a hawser laid rope. Superfilm is impervious to damage from water, petroleum products, dilute acids and alkalis.
